

24 June 1955

General Lemuel C. Shepherd, Jr.  
Commandant, United States Marine Corps  
Department of the Navy  
Washington 25, D. C.

Dear General Shepherd:

I much appreciate the kind comments your letter of June 20th makes on my previous participation in the work of the Marine Corps Advanced Research Groups. I shall be most happy to meet with next year's Group on the date you suggest, September 13th.

I invariably derive great pleasure and stimulation from these sessions, particularly as there is usually present at least someone who has heard of Talasca.

Sincerely,

Robert Ancoy, Jr.  
Deputy Director/Intelligence
